**As required by:** SOLAS Ch. II, Reg. 15.  
[2000 Amendments]

The nature of fire, Prevention, Extinguishing, Raising the alarm, Portable equipment & fixed systems, Structural protection, Organisation & techniques, Equipment inventory.

### Why use our pre-prepared Manuals ?

- To save preparation time/cost.
- To ensure compliance with the regulations
- To provide a document that will be read.
- To give uniformity throughout a fleet.
- To enhance your professional image.

### Options

- coloured pictures & diagrams
- use of owners own covers
- page footers showing owner's name
- page issue nos. to suit QA control

### Manual Preparation

- In their basic form each Manual contains all necessary background information. Guidance is given concerning details to be entered so that the Manual becomes dedicated to a particular vessel.
- Where completed Manuals are required a questionnaire is provided. From the information given Manuals are prepared in a uniform format.
- Some owners have asked us to visit their vessels, obtain relevant information, take photographs and then prepare the Manuals.
